

Join

the New Era of ASPET

Benefits of ASPET membership

- Reduced page charges to publish in ASPET journals – pay \$35/page instead of \$70/page and save enough with one five-page article to pay the \$130 annual ASPET dues!
- Reduced fees to publish color figures in ASPET journals – pay \$200/figure instead of \$400/figure.
- Subscriptions to *Molecular Interventions* and *The Pharmacologist* included with membership.
- Reduced rates for ASPET print journals
 - The Journal of Pharmacology and Experimental Therapeutics* (monthly)
 - Pharmacological Reviews* (quarterly)
 - Drug Metabolism and Disposition* (monthly)
 - Molecular Pharmacology* (monthly)
 - Clinical Pharmacology and Therapeutics* (monthly)
- Free full-text access to five online Society journals (*JPET, Pharm Rev, DMD, Mol Pharm & Molecular Interventions*).
- Reduced registration fees for ASPET meetings and ASPET Colloquia.
- Free listing in the FASEB Directory and subscriptions to the *FASEB Newsletter* and to *The Scientist*.
- Public affairs advocacy for increased research funding and science policy favorable to pharmacology and biomedical research in general.
- Low annual dues: Regular ASPET membership only \$130/year; Affiliate membership \$105/yr. Student membership is free for one year.

Washington DC Principles for **FREE ACCESS** to **SCIENCE**

www.dcprinciples.org

The 7 Principles

- 1 As not-for-profit publishers, we see it as our mission to maintain and enhance the independence, rigor, trust, and visibility that have established scholarly journals as reliable filters of information emanating from clinical and laboratory research.**
- 2 As not-for-profit publishers, we reinvest all of the revenue from our journals in the direct support of science worldwide, including scholarships, scientific meetings, grants, educational outreach, advocacy for research funding, the free dissemination of information for the public, and improvements in scientific publishing.**
- 3 As not-for-profit publishers, we have introduced and will continue to support the following forms of free access:**
 - Selected important articles of interest are free online from the time of publication;
 - The full text of our journals is freely available to everyone worldwide either immediately or within months of publication, depending on each publisher's business and publishing requirements;
 - The content of our journals is available free to scientists working in many low-income nations;
 - Articles are made available free online through reference linking between these journals;
 - Our content is available for indexing by major search engines so that readers worldwide can easily locate information.
- 4 We will continue to work to develop long-term preservation solutions for online journals to ensure the ongoing availability of the scientific literature.**
- 5 We will continue to work with authors, peer-reviewers, and editors for the development of robust online and electronic tools to improve efficiency of their important intellectual endeavors.**
- 6 We strongly support the principle that publication fees should not be borne solely by researchers and their funding institutions, because the ability to publish in scientific journals should be available equally to all scientists worldwide, no matter what their economic circumstances.**
- 7 As not-for-profit publishers, we believe that a free society allows for the co-existence of many publishing models, and we will continue to work closely with our publishing colleagues to set high standards for the scholarly publishing enterprise.**

...About the Washington DC Principles

The Washington DC Principles is a commitment from 50 (and growing) medical/scientific societies and publishers to provide free access and wide dissemination of published research findings.

The DC Principles provide what has been called the needed "middle ground" in the increasingly heated debate between those who advocate immediate unfettered online access to medical and scientific research findings and advocates of the current journal publishing system. The document was drafted in response to recent claims that these publishers' practices hinder the public's ability to access published scientific research.

Why Publish with ASPET?

Because ASPET gives you these advantages:

- ◆ **Low Page Charges** — \$35/page for ASPET members, \$70/page for nonmembers (publishing one paper saves the \$125 membership dues)
- ◆ **Low Color Fees** — \$200/color figure for ASPET members, \$400/color figure for nonmembers
- ◆ **Online Manuscript Submission** — submit your manuscript 24/7 — whenever it suits your schedule; online peer review reduces review times; track the progress of your manuscript through the review process
- ◆ **Publish Online Ahead of Print** — manuscripts are published online shortly after acceptance — at least two months prior to print publication
- ◆ **Wide Dissemination** — accepted manuscripts are freely accessible *immediately*; fully formatted articles are freely accessible 12 months after publication; low-cost pay-per-view option for nonsubscribers; abstracts and tables of contents always freely accessible

ASPET Journals — Widely Read, Highly Respected

POSITION OPEN

FULL/ASSOCIATE PROFESSOR PHARMACOLOGY/TOXICOLOGY DEPARTMENT OF PHARMACEUTICAL SCIENCES

The Department of Pharmaceutical Sciences invites applications for a 12-month, tenured or tenure-track position at the Full Professor or Associate Professor level. Applicants should possess a PhD in Pharmacology, Toxicology or a related discipline, or an MD, DVM or equivalent degree. Preference will be accorded applicants with interdisciplinary research experience involving diabetes, nanotechnology, genomics, computational pharmacology/toxicology, and translational research; outstanding candidates from other relevant areas are also strongly encouraged to apply. The successful applicant is expected to have a vigorous, well-established and externally funded research program; and to provide instruction in the Doctor of Pharmacy professional program, and the Pharmaceutical Sciences graduate programs. The position includes excellent compensation, a highly-competitive start-up package, and comprehensive benefits. The Pharmacy programs occupy state-of-the-art labs in a 270,000 ft² building opened in 2002. Its location on the Wayne State University School of Medicine/Detroit Medical Center campuses provides an outstanding environment for collaboration [www.cphs.wayne.edu/psc.html]. Application review will begin July 15, 2006, and will continue until the position is filled. Applicants should electronically submit a cover letter; CV and research plan to the WSU On-Line Hiring System [www.hr.wayne.edu], and arrange to have letters from 3 professional references emailed to: George B. Corcoran, PhD, Professor and Chairman, Department of Pharmaceutical Sciences, Eugene Applebaum College of Pharmacy & Health Sciences, Wayne State University via spruitt@wayne.edu.

Wayne State University is an Equal Opportunity/Affirmative Action University. Candidates from underrepresented groups are strongly encouraged to apply.

POSITION OPEN

ASSISTANT PROFESSOR

The Department of Pharmacology and Toxicology at the Medical College of Wisconsin seeks an Assistant Professor to expand its program in the area of signal transduction. Preference will be given to applicants studying molecular mechanisms of learning and memory. Successful candidates should have strong record of research accomplishments, be committed to developing an independent, extramurally funded research program, and be willing to participate in graduate and medical team teaching. A Ph.D. in Biochemistry or related science field and a minimum of three years of postdoctoral experience is required. Please send CV, statement of research interest and plans, three relevant publications and three references to: Medical College of Wisconsin

CLASSIFIED ADVERTISING

Position openings, training opportunities, and conference announcements can be promoted as line ads in *Molecular Interventions*. MI reaches a wide variety of researchers that work in pharmacology and related areas, including all members of ASPET.

Line Ad Rate:

\$10 per line, 10-line minimum. Line rates are non-commissionable.

Cost Estimate:

AdNet can provide an estimate of the cost of your line ad. Please e-mail ad copy to adnet@faseb.org. Line ads are estimated at approximately 44 characters per line. Please allow for slight variations between estimates and actual costs in purchase orders.

Online Ad Posting:

Line ads are also posted on the ASPET Web site at no additional charge. The ASPET Web site receives an average of 20,000 page views per month. Ads are posted online within three business days of AdNet receiving a finalized order.

Submissions:

Ad copy should be submitted via e-mail to adnet@faseb.org. You must include contact name, phone number, billing address, and purchase order number in your e-mail. Credit cards are accepted in place of PO numbers.

For quotes and additional information, contact:

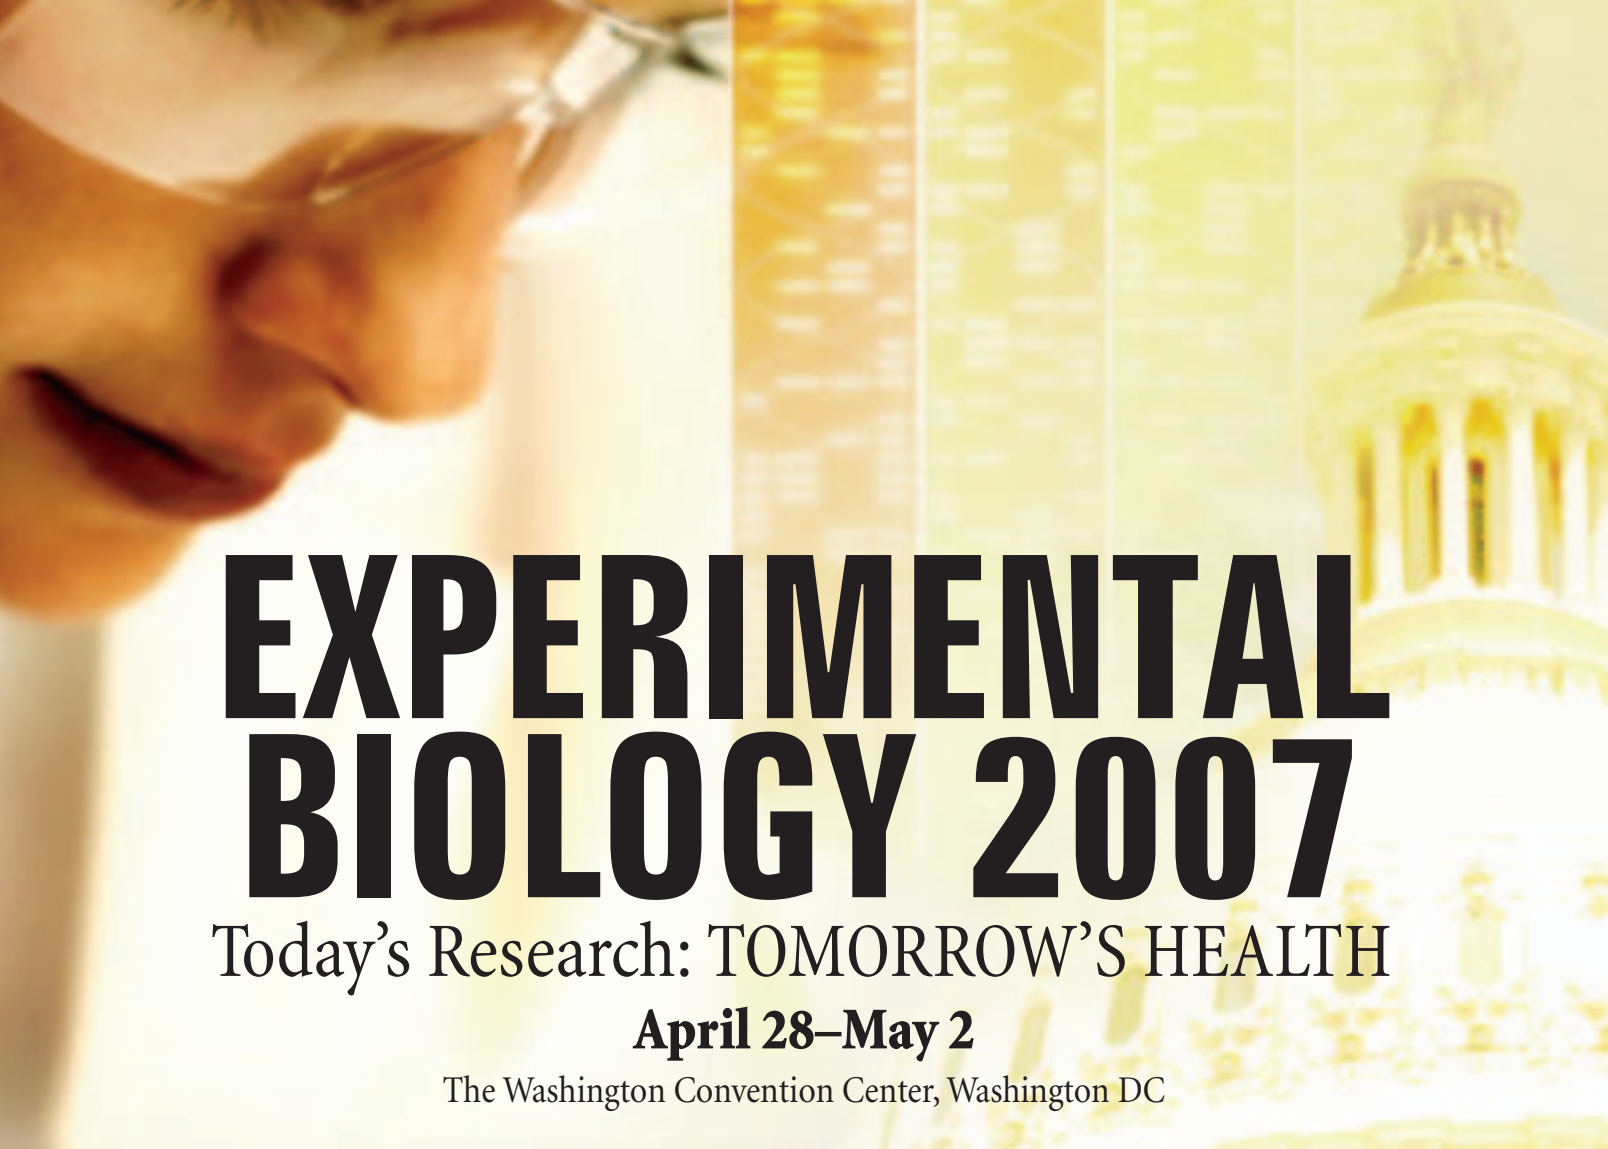

FASEB AdNet
