

HETEROCYCLES AWARD

**HETEROCYCLES is pleased to announce Heterocycles Award.
In recognition of an outstanding oral presentation at the 27th ISHC Congress
September 1 to 6, 2019, ROHM Theatre Kyoto & Miyakomesse, Kyoto, Japan**

Gabriella Kervefors

Title: Regiospecific *N*-Arylation of Aliphatic Amines under Mild and Metal-Free Reaction Conditions

Gabriella Kervefors was born in 1988, in Stockholm, Sweden. She is a fourth year Ph.D. student at the department of Organic Chemistry, Stockholm University, working with Prof. Berit Olofsson. Her research focus on hypervalent iodine, more specific diaryliodonium salt, synthesis and applications.

Eisaku Ohashi

Title: Studies on the Second Generation Synthesis of Palau'amine

Eisaku Ohashi was born in 1991 in Hyogo, Japan. He is a second year Ph.D. student in Graduate School Pharmaceutical Science, Tokushima University working with Prof. Kosuke Namba. His research interests includes total synthesis of complex natural products.

Hideyasu China

Title: Functionalized Lactone Formations on the Basis of Halogen-Controlled Rapid Cyclization of Haloketo Acids under Mild Conditions

Hideyasu China was born in 1979 in Okinawa, Japan. He is Postdoctoral Researcher in Ritsumeikan Global Innovation Research Organization working with Prof. Dohi Toshifumi in Graduate School of Pharmacy, Ritsumeikan University. He received his Ph.D. in 2015 from Ritsumeikan University under supervision of Prof. Yutaka Okada in Department of Applied Chemistry, College of Life Sciences. His research interest includes the development of novel dehalolactonization reactions and synthesis of halolactones.
